

FIG. 1 is a perspective view of a device 10, which is a rectangular block 11. The device 10 has a top surface 12, a front surface 13, and a side surface 14. A series of parallel lines 15 are drawn on the top surface 12, extending from the front surface 13 towards the back. Two circular features 16 and 17 are located on the top surface 12, one near the front surface 13 and one near the back. A small rectangular feature 18 is located on the side surface 14, near the front surface 13.
